

Focus Fireplaces

**Beams,
Shelves and
Surrounds
for Stoves**

4

Focus Fireplaces offer an incredible choice of authentic **beams** and **shelves** to complement your stove. This information will help you select from the many options available.

1 Select the **PROFILE** of Beam or Shelf that you require

Deep Beam
5½ x 5½"

Large Shelf
2¾ x 7½"

Large Fascia Beam
7½ x 2¾"

Standard Shelf
2¾ x 5½"

Standard Fascia Beam
5½ x 2¾"

Large Hollow Beam
9 x 7"

Mini Fascia Beam
3¾ x 2¾"

Hollow Beam
7 x 4"

Fascia Panel
7 x 1¼"

Hollow Shelf
4 x 7"

2

Choose the **LENGTH** you would like – 42", 48" and 54" are standards, but Beams and Shelves can be supplied at **any** length

+

CORBELS can be added either to your Beam...

...or Shelf

3 Make your choice of SURFACE TEXTURE and AGEING

Prime

Clean modern lines with smooth surfaces and soft edges.

Rustic

Smooth surfaces with lightly distressed edges.

Dressed

Deeply contoured edges that combine with smooth surfaces to evoke a time-worn appearance.

Aged

Distressed edges and surfaces.

Extremely Aged

Heavy distressing on the edges and surfaces that creates the appearance of a centuries old beam.

Note: All beams (except Prime) feature knots, splits and shakes.

4 Choose your COLOUR

Natural Waxed Oak

Light/Medium Oak

Medium Oak

Medium/Dark Oak

Ebony on Oak

Silvered Oak

Sawn Oak: Tropical Driftwood

Standard Pine

Antique Pine

5 You can CUSTOMISE your Beam at no extra cost

Arched

Slow arches are available on Standard Fascia Beams, Large Fascia Beams and Fascia Panels

Pegs

Pegs or Indents add character to any beam

Indents

6 FIXING SYSTEMS for Deep Beams and Shelves

See page 7 for fixing illustration

Easy-fix

The Easy-fix system is a substantial bracket designed to simplify the fitting of the heavier beams and shelves. It comes supplied with plugs and screws. Once fitted to the wall, the beam is secured on the bracket with discreet fastenings from under the bracket, this allows easy release for redecorating.

If the Easy-fix system is not specified: we supply three M10 x 300mm threaded metal bars that tap into pre-drilled holes in the back of the beam. The wall is then drilled with 12mm holes to accept these bars. You will need to provide your own additional adhesives.

FIXING SYSTEMS for Fascia Beams and Panels

Fascia Beams, Hollow Beams and Fascia Panels are supplied with two metal plate keyholes inserted in the back. These come complete with plugs and screws.

Alternatively there is an Easy-fix system designed for Hollow Beams and Fascia Beams. (This is more convenient but not essential).

We recommend the additional use of grab adhesive.

Deep Beam

5½ x 5½"

Deep Beams are cut from the heart of the oak log and therefore reveal lots of character including knots, splits and shakes. Every beam is unique. Skilful workmanship further enhances the beam with progressive levels of ageing (Rustic, Dressed, Aged and Extremely Aged). Each beam is then beautifully finished with your choice of colour. Please Note: Deep Beams are made from Air-dried Oak and are not available in Prime Oak or Pine.

* NOTE: Sawn Oak is only available in Tropical Driftwood Finish

Deep Beams in 'Rustic', 'Dressed' 'Aged' and 'Extremely Aged' finishes are produced from solid air-dried European Oak, cut from the heart of the log. They feature natural knots, splits and shakes.

Fascia Beams and Panels and Shelves are produced from kiln-dried European Oak and also may feature some natural knots, splits and shakes.

Hollow Beams and Shelves and also Metal Beam Covers are fabricated from 21mm kiln-dried oak. Thus they can be made to any size and are much lighter in weight than a corresponding solid beam. Other beams, surrounds and shelves in the brochure are manufactured from first quality kiln-dried timber.

Timber being a natural product, is subject to a degree of movement under extreme conditions. Whilst we would expect very few problems we cannot guarantee its performance. Painted shelves and surrounds are manufactured from high quality MDF.

We offer a made-to-measure service on most of the products within this brochure. Beams can be cut to any length.

These products are continually updated and improved. We reserve the right to alter designs, dimensions and specifications of product without notice.

All sizes are approximate. Brochure colours may vary from the actual product due to printing processes and the variations in finishing.
